Sub: **Commendation Letter**

It is been reported by Duty Officer that on 06 March 2013 while checking of boarding cards for AI – 191 was in progress, you intercepted one passenger under Boarding no:01 travelling on AI – 011 who had mistakenly passed through the ABC (Automatic Boarding Check) point and walked till aircraft entry departure gate (of AI 191).

Your above smart detection avoided wrong loading of passenger and thus averted a certain chaotic situation and unnecessary work stress which would have followed if the said passenger had successfully boarded flight AI – 191. Your above act of vigil and alertness is well appreciated.

We are pleased to place it on record your good work and we are sure that you will continue to perform your job with same zeal and enthusiasm.
