To Whom So ever it may concern

Manoj Kaushik, recently completed an internship of six months with 3rdiTech. During his time here, he demonstrated decent technical knowledge, and a willingness to learn. He was primarily involved in the **RTL-to-GDS flow** for digital modules such as controllers and decoders. His work included synthesis, floor planning, power planning and routing. He used the tool Tempus for timing signoff.

Additionally, he exhibited good analytical skills, attention to detail, and teamwork. He was able to complete the task given to him.
