Professional Summary

Full Stack PHP Developer with **9+ years of experience** in designing, developing, and deploying secure, scalable, and high-performing web applications. Expertise in **PHP, Laravel, CodeIgniter, MySQL, PostgreSQL**, and API integrations with strong problem-solving and project delivery skills. Proven ability to manage **end-to-end development** of enterprise applications, ERP systems, e-commerce solutions, and institute portals.

Core Skills

- **Backend:** PHP, Laravel, CodeIgniter, REST APIs, Mobile API Development
- **Databases:** MySQL, PostgreSQL
- **Frontend:** Vue.js, HTML5, CSS3, JavaScript,JQuery
- **Other Tools & Integrations:** GitLab,CI/CD, Zoom API, Payment Gateways, Social Logins, Third-Party API Integration

---

Education

Master of Computer Applications (MCA)
Sankalchand Patel College of Engineering (SPCE), Gujarat Technological University
2015 | CGPA: 7.22/10 (67.02%)

Bachelor of Computer Applications (BCA)
Shri C. J. Patel College of Computer Studies, HNGU, Patan
2013 | 78.08%

Professional Experience

Indian Institute of Management – Rohtak (IIM–Rohtak)

Programmer | Apr 2025 – Present

- Designed, developed, and maintained multiple institutional web applications including **Leave Management System, Admission Portal, and Institute Portal** using **Laravel, MySQL, and REST APIs**.
- Implemented **Role-Based Access Control (RBAC)** for faculty, staff, and administrators to ensure secure and controlled access to institutional data.

- Improved application performance through **query optimization, caching strategies, and clean architecture practices**, ensuring scalable and efficient systems.
- Developed **Faculty Session Scheduling Module** enabling automated allocation and streamlined academic scheduling processes.
- Built and enhanced **Inventory Management System** for tracking assets, stock, and operational resources.
- Managed **installation, maintenance, and troubleshooting** of institutional software systems, ensuring smooth operations and minimal downtime.
- Handled **Systems Management & Operations Support**, including coordination of IT processes and daily technical requirements.
- Managed **Classroom Podium Systems**, ensuring smooth functioning of audio/video and teaching infrastructure.
- Created and maintained **Schedule Management System** for academic and administrative activities.
- Collaborated with external vendors for system integration, procurement support, and issue resolution.
- Ensured compliance with institutional security standards, best coding practices, and data protection policies.
- Provided continuous production support including **bug fixing, feature upgrades, and system enhancements**.

Reconnectin Technologies Pvt. Ltd.

Senior Software Consultant | May 2022 – Mar 2025

- Worked as a **Full Stack PHP Developer** with a strong focus on **Laravel (latest versions) & PostgreSQL**, delivering **enterprise-grade and healthcare applications**.
- Designed and developed **API-first applications** supporting both **frontend and mobile platforms**, ensuring scalability, performance, and maintainability.
- Developed a **healthcare product** with complete **frontend and backend implementation**, including secure user management and appointment workflows.
- Built **RESTful APIs** for patient, doctor, and admin modules, enabling seamless data exchange between applications.
- Implemented **secure storage of sensitive personal and medical data** using **Laravel encryption mechanisms**, hashing algorithms, and **application key-based encryption**.
- Designed and integrated **doctor appointment booking systems** with **real-time availability management**.
- Integrated **Zoom APIs** for **video consultations and audio calling** between doctors and patients.
- Applied **security best practices** including input validation, API authentication guards, token-based access, and role-based authorization.
- Optimized backend performance through **query optimization, caching, and modular service-based architecture**.
- Integrated **third-party services** such as payment gateways, authentication providers, and external healthcare services.
- Participated actively in **code reviews**, enforcing Laravel best practices and improving code quality.
- Collaborated closely with **frontend teams** to ensure smooth API integration and consistent application behavior.

- Involved in **debugging, performance tuning, deployment, and production support** for live healthcare systems.

Information and Library Network Centre (INFLIBNET)

Senior Project Officer | Sep 2021 – Apr 2022

- Contributed to **national-level academic projects** including **VIDWAN** and **IRINS**, used by universities across India.
- Developed and enhanced modules using **Laravel, CodeIgniter, and MongoDB**.
- Improved research data management and information retrieval systems for academic institutions.
- Implemented backend features for handling **large research datasets** efficiently.
- Worked in collaboration with government and academic stakeholders to meet project objectives.
- Ensured system stability, data integrity, and timely delivery of features.

Nyusoft Solutions LLP

Senior Software Programmer | Oct 2019 – Aug 2021

- Worked on **online learning and EdTech platforms**, supporting thousands of users.
- Developed backend functionalities using **Laravel, CodeIgniter, and Core PHP**.
- Created APIs for course management, user authentication, and content delivery.
- Integrated payment gateways and third-party tools for LMS platforms.
- Improved application performance and fixed production-level issues.
- Assisted junior developers and contributed to project planning and estimation.

Silver Webbuzz Pvt. Ltd.

Senior Software Engineer | May 2019 – Oct 2019

- Developed and maintained web applications using **Core PHP & CodeIgniter**.
- Designed and implemented **REST APIs** for frontend and mobile applications.
- Worked on database design and query optimization.
- Handled bug fixing, feature enhancements, and deployment support.
- Collaborated with designers and project managers to meet delivery deadlines.

MSP IT Concepts Pvt. Ltd.

Software Engineer | Feb 2016 – May 2019

- Started professional career as a **PHP Developer**, working on multiple client projects.
- Built and maintained web applications using **Core PHP & CodeIgniter**.
- Developed **mobile APIs** for Android and iOS applications.
- Worked on database schema design and backend logic.
- Gained strong fundamentals in **MVC architecture, REST APIs, and debugging**.
- Delivered multiple projects independently and as part of a team.

Key Projects

- **Online Learning Platforms** – Custom LMS with student/teacher portals
- **E-commerce Websites** – End-to-end eCommerce solutions with payment gateways
- **ERP & POS Systems** – Developed enterprise management systems
- **Wellness & Health Projects** – Online health and fitness platforms
- **Live Projects:**
