- Create and provide operation training program for technicians and operators for welding operation, set up system to monitor welding processes, PM program, processes improvement and cost reduction initiative.
- Developed Operating Standards, Technical Reference sheet, program for welding equipment, training operators and engineer.
- In Process Quality control by preparing Process Quality inspection and operation standards for weld, Analysis & countermeasure plan for weld Problems in assembly.
- Processes improvement and optimize manufacturing processes utilize Six Sigma mythology.
- Heading operations and attaining the daily production targets by assigning targets and tracking progress against targets by analyzing daily reports.
- Planning day to day activities production schedules allocating work and conducting inspection.
- To ensure that stage wise activities are carried out as per the flow chart of weld activity for all equipment.
- Continuous improvement in the section by Poka-Yoke, VA-VE & Kaizen activities for Cost reduction, Quality & delivery improvements.

- Maintaining ISO 9001 & ISO14000 activities.
- Implement engineering changes, process improvements, and leveraging best practices.

PROJECT:

- Coordinated installation and commissioning of welding robots, handling robots, hemming machines, and automation systems.
- Studied and optimized engineering layouts for mass production suitability.
- Performed Kaizen and cycle time improvement activities for new model ramp-up.
- Installed and programmed robots for sealer application and sensing.
- Developed auto electrode tip change system for welding robots.
- Implemented gravity transfer systems (GTS) to reduce energy and manpower cost and improve space utilization.

ACHIEVEMENT:

- Successfully ramped up 5 new models and 8 existing model door lines from pilot trials to stable mass production.
- Maintained an exceptional track record of zero safety incidents, zero major quality issues, zero production downtime due to breakdowns, and zero IR concerns throughout the tenure.
- Progressed through multiple roles (JET, JE, ER, SE, and AM) over a 12+ year career, consistently demonstrating strong performance and growth.

Sodhani Academy of Fintech Enablers, Jaipur

- Designed structured training modules for equity markets using real-world case studies
- Delivered financial education programs for multiple age groups, including children
  (6–12 years)
- Supported setup and management of an offline training academy
- Created financial awareness modules for programs across multiple locations in India
- Assisted in IPO preparation and successful BSE listing through coordination and support.

- Successfully revived and stabilized the family business impacted during the COVID-19 period (2020–2022) through structured operational improvements
- Managed end-to-end operations including printing services, Rajasthan Govt. e-services, and financial service offerings
- Developed and expanded a client base in capital markets and insurance services, improving customer reach and engagement
- Achieved growth in Mutual Fund business from zero to ₹1 lakh/month inflow, with a consistent upward trend under family ARN.
- Applied a disciplined, process-driven approach from manufacturing and a goal-oriented mindset from financial markets to enhance efficiency and customer service.

TRAINING / CERTIFICATION

- One month training in RSRTC, Jaipur.
- One month training on CNC programming in MNIT, Jaipur.
- Training on Pneumatic circuit for automation, Jig and fixture, robotics for welding, personal skills improvements during job.
- Multiple certifications in in-house robotics and other industrial skill competitions.
- Certification by NISM in Equity and Derivatives segment of equity markets.

PROFESSIONAL / ACADEMIA

Examination	Institute	Board/University	Year of passing	Percentage
B-Tech (Manufacturing Technology)	BITS – Pilani, Rajasthan	BITS - Pilani	2020	6.99 CGPA
Diploma (Mechanical)	R.C. Khaitan Poly. College, Jaipur	B.T.E.R.	2010	71.36%
Senior Secondary	Subodh Public School, Jaipur	B.S.E.R.	2007	63.54%
Matriculation	V.B.N. Public School, Jaipur	B.S.E.R.	2005	74.17%

TECHNICAL SKILLS AND SYSTEM KNOWLEDGE

- Lean Manufacturing Practitioners.
- Kaizen, 5Why, VA-VE, MOST, FMEA
- Robotics – Fanuc(Advance), Kawasaki(Basic)
- Inventory control system.
- Computer – MS Office, Internet

MY STRENGTHS

- Ability to absorb technical & managerial knowledge and express thoughts with clarity and confidence.
- Zeal to accept work related challenges, dedication towards work.
- Self-motivated and a good team player.
- Excellent understanding of project issues, ability to work independently or as part of team.
- Strong in analytical and problem solving skills.

HOBBIES

- Landscape Photography
- Travelling

PERSONAL DETAILS

Permanent Address : H No - C 193, 80 Feet Road, Mahesh Nagar
Jaipur, Rajasthan -302015
Father's Name : Pooran Chand
Date of Birth : June 02, 1990
Marital Status : Married

I hope that my Qualification and technical skills would meet your requirement and I would be provided to serve your prestigious.

Date:
Place: *(**Vinod Kumar)***
