Education

Master in Computer Applications-Manipal University Jaipur; CGPA-9.1 (Currently Pursuing)

Bachelor of Science- University Of Rajasthan ; Percentage- 66.74%

Skills

Tools:- Tableau, VS Code, Intellij Idea, Antigravity

Languages: - C, HTML, CSS, SQL

Coursework : - Data Visualization, RDBMS, Operating System, OOPs Concepts, Unix, Computer Network and Protocol, Data Mining

Projects

Bone Sense – AI Bone Recognition System
(Python, TensorFlow, OpenCV, Deep Learning)

- Developed a deep learning system to identify bones in medical imaging.
- Implemented **CNN** models for bone classification and detection.
- Built preprocessing pipeline for medical image enhancement.
- Designed system for real-time diagnostic assistance.

Intelli Dine – Restaurant Raw Material Management System
MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Built a **full-stack** inventory management web app for restaurants to track raw materials.
- Implemented stock monitoring, low-inventory alerts, and supplier tracking.
- Developed **REST APIs** with **Node.js**/**Express** and a responsive UI using **React**.

Dream Pulse – AI Dream Journal App
(React Native, Expo, TypeScript, Supabase, REST APIs, AI Image Generation API)

- Built a **cross-platform** dream journaling mobile app using **React Native** and **Expo**.
- Used **Supabase** for authentication and database management.
- Implemented modular UI components with **TypeScript**.
- Integrated **AI image generation APIs** to visualize recorded dreams.

Experience

WordPress Development Intern At Honiry Enterprises — Feb 2026 (Remote)

Product Management Intern At Unessa Foundation — March 2026 (Remote)
